

Morning Schedule

Plenary

8.30	9.00	9.30	10.00	10.30
Badge Pick-up, Registration and Welcome Snacks	PACE Keynote Intro to PACEdays and PACE Update	30 Years of PACE A Short View Back in Our History	Embraer: 25 Years of Collaboration with PACE Vagner Ricardo, Head of Product Marketing, Commercial Aviation	Coffee Break
11.00	11.30	12.00	13.30	
Airbus: 30 Years of Collaboration with PACE Paule Botargues, Head of Cabin Layout Operations & Digital Services	Customer Key Note in Flight Ops: Next level of European Airspace Management	Lunch Break	Milan Bergamo Airport SACBO Virtual Training for Airside Safety	

DAY 1 MAY 13TH

PACE DAYS

Afternoon Schedule

14.30	Product Configuration Product Update AI Applications in Aircraft Configuration Products Luca Angelucci and Carsten May, PACE	Preliminary Design Introducing Desmo: The Next Generation of Preliminary Design PACE Product Management	Aircraft Analysis & Evaluation Missions: Product Update and Roadmap PACE Product Management	Flight Operations FPO Cloud & FPO SR What's New: Product Demo & Updates Marco Jany & Frank Opel, PACE, Matt Blake, Nexteon	Training Cluster PACE Training Cluster Smart, Adaptable, Affordable: Linking Flight Training to the Future	HMI & Embedded Graphics Introduction of VAPS XT Features and Functionalities PACE Product Management
15.15	Seat Manufacturer Customer Presentation	Beyond Conventional: New Challenges in Designing Innovative Aircraft Concepts PACE Product Engineering	"What if", a Review of the 2024 Mission Webinar Series PACE Product Management	FPO for Dispatch in the European Airspace Leveraging IRIS Technology Alessio Contini, Frank Opel, PACE	InstructIQ: Intelligent Debriefing Systems (IDBS) Customer Presentation	Presentation on a Reference Technology Stack Customer / Partner Presentation
16.00	Coffee Break					
16.45	Product Update XR and 3D Collaboration in Aircraft Configuration Products Marius Kelm and Lorenzo Guaita, PACE	A Multiscale Simulation Demonstration: Utilizing Detailed Models in Early Design Phases AVL Deutschland, PACE R&D Management	Use Case Study: Defining Your Aircraft / PAX and Bag Weights PACE Product Management	Synthetic Weather Display and Real Time Nowcasting Customer/Partner Presentation	ProSim: Increase FMS Proficiency and Reduce Training Costs with One Tool: ProSim FMS Trainers Customer presentation	Product Update, Features Demo of the New Release 5.1 PACE Product Management
17.00		Integrated Preliminary Sizing Environment for Hydrogen-Powered Drones Alberto Feio, ISAE-Supaero	Data, the Key to Success: Facilitating Analysis of Aircraft Throughout the Market PACE Product Management	Cargo Airline Customer Presentation	Weavr: Connecting the Platform for the Creation of XR Training Solution to External Systems	MOSA - FACE Compliance and ScioTeq Customer / Partner Presentation
18.00	Session Ends	18.30	Start Heading to PACEdays Business Dinner Dinner reception starts at 19:00			

Morning Schedule

Plenary

9.00	Good Morning Coffee		9.30	Future Innovators Awards Ceremony	
10.30	Product Configuration Product Roadmap: What's New in myCabin Marcel Mathwig and Nishtha Seth, PACE	Preliminary Design Aircraft Powered by Disruptive Technologies Customer Presentation	Aircraft Analysis & Evaluation Refining Aircraft Performance Data or How to Produce Accurate and Precise Models PACE Product Management	Flight Operations FPO User Group Workshop: What's next Roadmap Topics and Priorities Marco Jany, Wilhelm Rumler & Product Owner Team, PACE	Training Cluster Competency-Based Training & Assessment (CBTA): an Expert's Perspective
	Product Presentation: myLayout Luca Angelucci, PACE	Preliminary Design Studies of Hybrid-Electric Regional Aircraft Annika Staats, Technical University of Berlin	Why Fuel Policies Are Important and How to Properly Configure Them? PACE Product Management	Continuation of User Group Workshop	HMI & Embedded Graphics Product Update: New Product Announcement and Live Demo
11.15	Customer Feedback: Session on All ACE Products Carsten May, PACE	Preliminary Design Studies of Hybrid-Electric Regional Aircraft Annika Staats, Technical University of Berlin	Why Fuel Policies Are Important and How to Properly Configure Them? PACE Product Management	ProSim: Maximize the Yield of Your Training Footprint and Improve the Proficiency of Your Pilots	VAPS XT Product Outlook User's Feedback
12.30	Lunch Break				

Afternoon Schedule

14.00	Product Configuration Product Presentation: What's New in ACE Nadiia Cherniavska, Yevheniia Don, Luca Angelucci, PACE	Preliminary Design User Community Exchange	Flight Operations Customer / Partner Presentation	Training Cluster PACE InstructIQ Analytics Platform Roadmap, from Virtual Instruction to Personalized Adaptive Training	HMI & Embedded Graphics Technical Training: Correct ARINC661 Usage with VAPS XT PACE Product Management
	14.45	Product Roadmap: What's New in ACE Carsten May, PACE	User Community Exchange	First Step into AI Technology Presentation PACE Product Management	The Future of Intelligent, Adaptive Training Workshop
15.30	Joint event closing				
15.45	Networking / Coffee				
16.15	Conference Ends				

DAY 2 MAY 14TH

PACE DAYS
